SAFETY-INXS

are industry leaders in the design, development, manufacturing and distribution of a comprehensive range of industrial hand protection products and solutions.

Our mission is to help industry professionals achieve a higher level of hand protection with specially designed, multifunctional safety gloves. Using only the latest most innovative blended cut resistant composite yarns, aramids, synthetics, impact energy control polymers and dipping/coating formulations, INXS deliver superior products that have redefined the standard of quality and protection.

With over 25 years of experience in the safety industry, we have an exceptional insight and understanding of our client's requirements and industry needs which has enabled us to work closely with them to design and develop bespoke hand protection solutions for a diverse range of industry sectors and hazards.

With us being the actual factory, designer and developer, we are in the unique position to adapt or develop gloves rapidly in partnership with our clients and their end users' needs, nobody else can compete with in this respect!

Vision
Design, manufacture and deliver consistent value gloves at a fair price that satisfy our customer needs.

Accountability
Deliver on our commitments, to be transparent about progress and outcomes. Be professional with every interaction with employees, customers and suppliers alike.

Teamwork
Our staff are our most valued assets and every person has a role on the team. Communicate with and count on everyone to play their part, when they don't (we are all human), coach and encourage, rather than criticize.

Innovate
Out of the box ideas, out think the competition. Constantly drive creative ideas and product technologies forward.

Customer Satisfaction
Treat customers like human beings, only agree to what we can deliver, and always deliver what we agree to. Customers talk, we listen!

Cut Performance Standards

EN 388 Clause 6.2

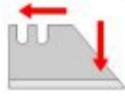

COUPE TEST

A counter rotating blade under a 5N force tracks back and forth over the palm material until cut-through or 60 cycles then a 'blade cut index value' is calculated from the control material.

ISO 13997

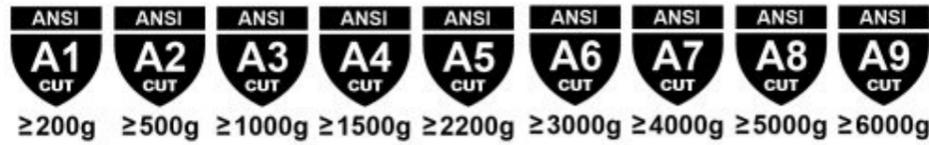

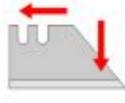

TDM TEST

A straight blade is drawn across the palm material and measures the contact load applied (Newtons) to make a cut-through over a 20mm stroke length.

ANSI/ISEA 105-2016

TDM TEST

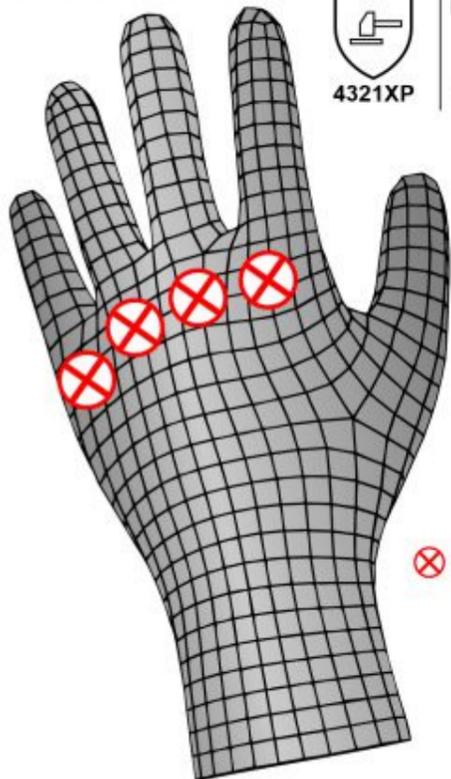

A straight blade is drawn across the palm material under three different weight loads (grams) to cut-through a 20mm length, final gram rating calculated on average.

Impact Performance Standards

EN 388 IMPACT

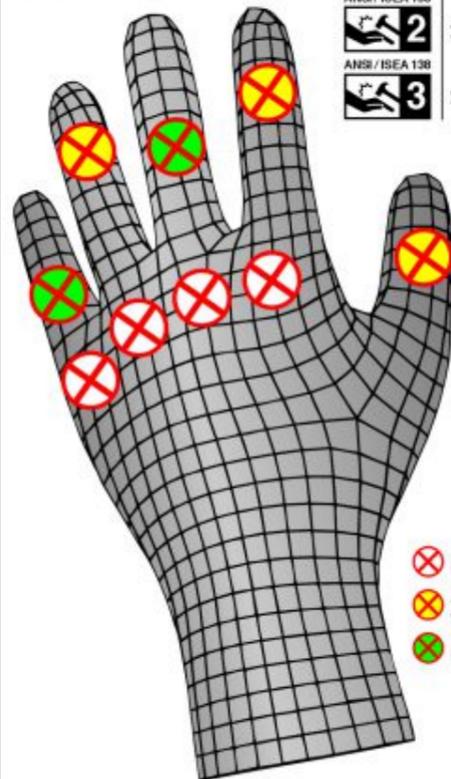

Level	Mean	All
1 / P	≤ 7kN	< 9kN
EN 388 4321XP	Pass/Fail ≤ 9kN level 1 = P (for Pass)	
	EN Reference Digit	
	4321XP	

⊗ Knuckle

ISEA 138 IMPACT

Level	Mean	All
ANSI / ISEA 138 1	≤ 9kN	< 11.3kN
ANSI / ISEA 138 2	≤ 6.5kN	≤ 8.1kN
ANSI / ISEA 138 3	≤ 4kN	≤ 5kN

⊗ Knuckle

⊗ 25mm from tip

⊗ 50mm from tip

EN 388

EN 388 : 2016 Protective Gloves Against Mechanical Risks

Specifies requirements, test methods, marking and information to be supplied for protective gloves against the mechanical risks of abrasion, blade cut, tear, puncture and, if applicable, impact.

Requirements / Test Methods

Abrasion Resistance: Levels 1-4
Calculated on cycles required for break-through

Cut Resistance (Coupe): Levels 1-5
Calculated on cycles required for cut-through

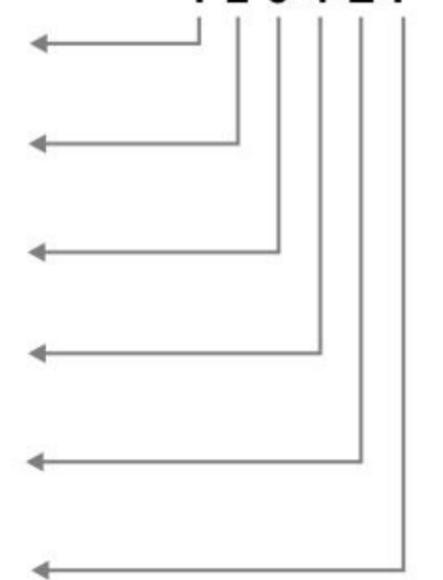

Tear Resistance: Levels 1-4
Calculated on force (Newtons) applied to tear

Puncture Resistance: Levels 1-4
Calculated on force required for a stylus to puncture

Cut Resistance (IOS13997): Levels 1-5
Calculated on load/cycles required for cut-through

Impact Resistance: Levels 1-P (Pass)
Impact 5J applied – mean transmitted force ≤ 0.0kN

1 2 3 4 E P

TOUCHSCREEN

Built-in touchscreen compatibility. Operate touchscreen panels on machinery and equipment on the assembly line or construction site along with other portable electronic touch devices. Works with almost all screens.

ICONS

BASIX

General Purpose

Selective coatings and seamless knit shell combinations available offering maximum productivity, performance, and dexterity for a multitude of tasks that require excellent grip and wear resistance

L22110

INXS LATEX Economy, Blue Crinkle Latex wet grip palm, Yellow Polyester Cruiserweight liner.

Characteristics:

- 10GG Polyester liner
- Crinkle Latex palm coating for good abrasion resistance
- Flexible, dexterous & comfortable fit
- Ideal for general handling in wet conditions

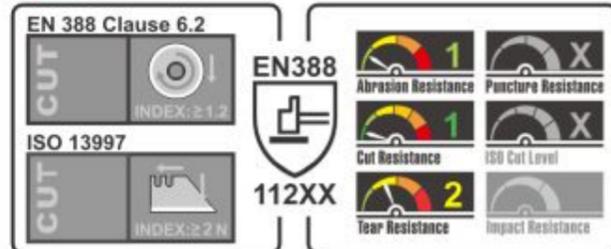

Protection

Characteristics:

- 13GG Nylon liner
- Comfortable close fit, breathable back
- Ideal for precision handling in dry or oily conditions
- Maximum dexterity & touch sensitivity
- Polyurethane finger tip coating for great abrasion resistance

Protection

N10551

INXS PU Standard, White Polyurethane dry touch fingertip, White Nylon Welterweight liner.

N10550E

INXS PU Standard, White Polyurethane dry grip palm, White Nylon Welterweight liner.

Characteristics:

- 13GG Nylon liner
- Comfortable close fit, breathable back
- Ideal for precision handling in dry conditions
- Maximum dexterity & touch sensitivity
- Polyurethane palm coating for great abrasion resistance
- Available in more cost effective Polyester - N10550E

Protection

N10556E

INXS PU Standard, Black Polyurethane dry grip palm, Black Nylon Welterweight liner.

Characteristics:

- 13GG Nylon liner
- Comfortable close fit, breathable back
- Ideal for precision handling in dry conditions
- Maximum dexterity & touch sensitivity
- Polyurethane palm coating for great abrasion resistance
- Available in more cost effective Polyester - N10556E

Protection

N10559E

INXS PU Standard, Grey Polyurethane dry grip palm, Grey Nylon Welterweight liner.

Characteristics:

- 13GG Nylon liner
- Comfortable close fit, breathable back
- Ideal for precision handling in dry conditions
- Maximum dexterity & touch sensitivity
- Polyurethane palm coating for great abrasion resistance
- Available in more cost effective Polyester - N10559E

Protection

NITRIUMX

Fusion Nitrile

Durable, grease, oil and liquid resistant coatings in variable advanced Nitrile derivatives and bi-polymers offering excellent levels of protection on 15g and 18g seamless Nylodex shells. Textured finishes provide enhanced grip, especially in wet and oily environments. UHAR (Ultra High Abrasion Resistant) versions are available in selected styles offering extended longevity & durability

N10818

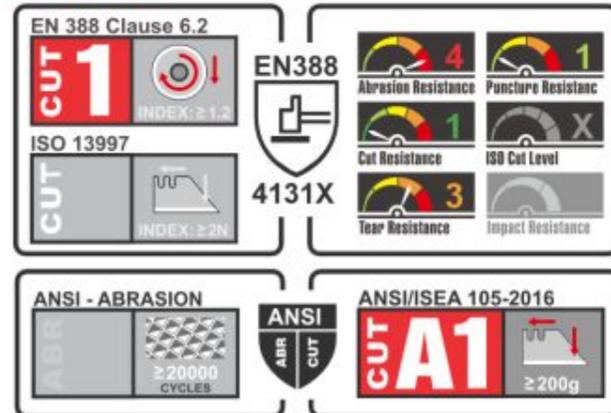

Superior fit, ultra-lightweight seamless precision handling glove with a superfine granular textured palm dipped dual polymer coating that offers extended abrasion resistance, performance grip and precise handling of small wet / dry / oily components & apparatus.

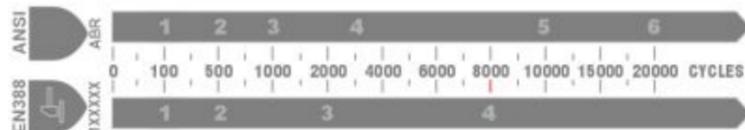

Characteristics:

- Extra-High Abrasion Resistant Nitrile Micro-Foam Palm
- 12,000+ Abrasion Cycles to EN388:2016, CTC Tested
- Maximum Precision Grip of Dry, Wet & Oily Apparatuses
- Extended Longevity for Extra Demanding Applications
- Superior Fit 'N' Feel 15g Nylodex Breathable Shell
- Lightweight - Low Hand Fatigue - All Day Comfort
- Optional Extra: Touchscreen Compatibility
- Optional Extra: Reinforced Thumb Crotch
- Optional Extra: SANITIZED Anti-Microbial Treatment
- Optional Extra: Liquid Resistant Shell Treatment

Protection

EN 407
X1XXXX

N10580AD

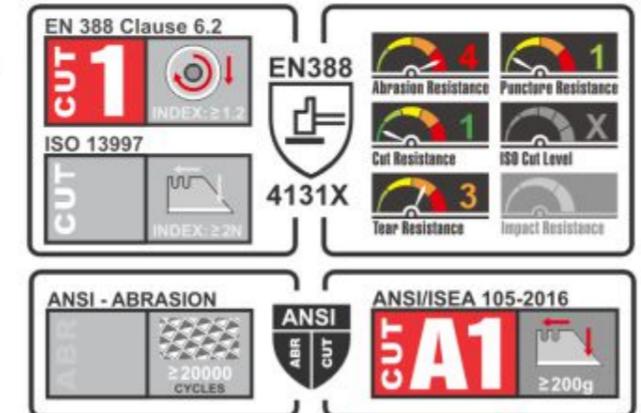

Superior fit, ultra-lightweight seamless precision handling glove with a superfine granular textured palm dipped dual polymer coating with additional raised mikro dots that offer extended abrasion resistance, performance grip and precise handling of small wet / dry / oily components & apparatus.

Characteristics:

- High Abrasion Resistant Nitrile Micro-Foam Dotted Palm
- Maximum Precision Grip of Dry, Wet & Oily Apparatuses
- Mikro-Dotted Palm for Increased Durability & Grip
- Superior Fit 'N' Feel 15g Nylodex Breathable Shell
- Lightweight - Low Hand Fatigue - All Day Comfort
- Optional Extra: Touchscreen Compatibility
- Optional Extra: Reinforced Thumb Crotch
- Optional Extra: SANITIZED Anti-Microbial Treatment
- Optional Extra: Liquid Resistant Shell Treatment

FLX-002

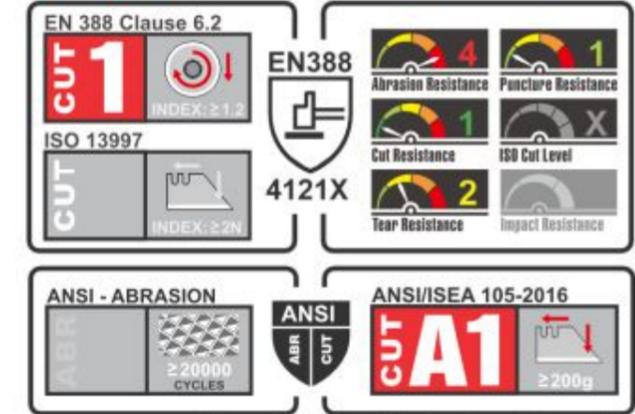

Superior fit, ultra-lightweight seamless precision handling glove with a form fitting palm dipped dual polymer micro-pitted texture coating that offers excellent abrasion resistance, performance grip and precise handling of small wet / dry / oily components & apparatus.

Characteristics:

- High Abrasion Resistant Nitrile Micro-Foam Palm
- Maximum Precision Grip of Dry, Wet & Oily Apparatuses
- Enduring Longevity for Demanding Applications
- Superior Fit N Feel 15g Nylodex Breathable Shell
- Lightweight - Low Hand Fatigue - All Day Comfort
- Optional Extra: Touchscreen Compatibility
- Optional Extra: Reinforced Thumb Crotch
- Optional Extra: SANITIZED Anti-Microbial Treatment
- Optional Extra: Liquid Resistant Shell Treatment

Protection

All scores & ratings are indicative only, certification pending

FLX-017

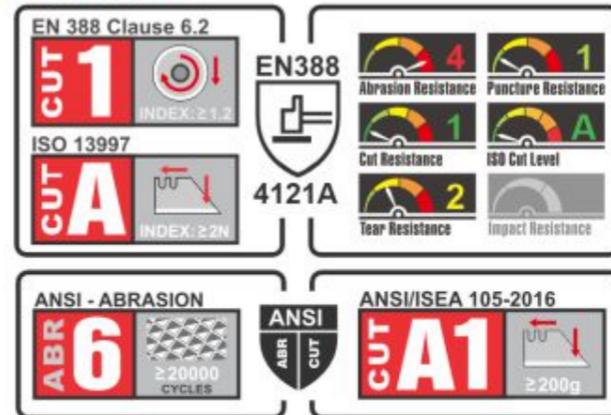

Superior fit, ultra-lightweight seamless precision handling glove with a form fitting palm dipped dual polymer micro-pitted texture coating that offers extreme abrasion resistance, performance grip and precise handling of small wet / dry / oily components & apparatus.

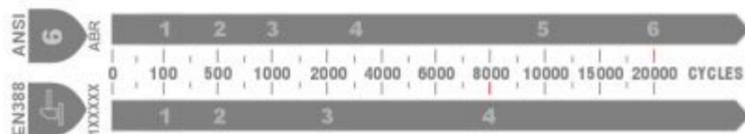

Characteristics:

- Ultra-High Abrasion Resistant Nitrile Micro-Foam Palm
- 25,000+ Abrasion Cycles to EN388:2016, SATRA Tested
- Maximum Precision Grip of Dry, Wet & Oily Apparatuses
- Extreme Longevity for Extra Demanding Applications
- Superior Fit 'N' Feel 15g Nylodex Breathable Shell
- Lightweight - Low Hand Fatigue - All Day Comfort
- Optional Extra: Touchscreen Compatibility
- Optional Extra: Reinforced Thumb Crotch
- Optional Extra: SANITIZED Anti-Microbial Treatment
- Optional Extra: Liquid Resistant Shell Treatment

Protection

All scores & ratings are indicative only, certification pending

FLX-008

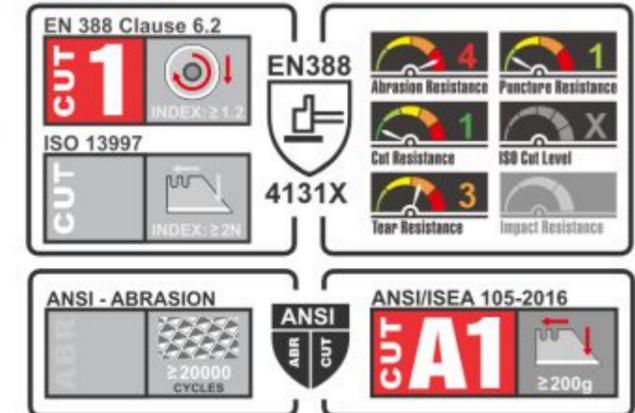

Superior fit, ultra-lightweight seamless precision handling glove with a superfine granular textured palm and % knuckle dipped dual polymer coating that offers excellent abrasion resistance, performance grip and precise handling of small wet / dry / oily components & apparatus.

Characteristics:

- High Abrasion Resistant Nitrile Micro-Foam Palm
- Maximum Precision Grip of Dry, Wet & Oily Apparatuses
- Extended % Coating for Grimy & Grungy Applications
- Superior Fit n Feel 15g Nylodex Breathable Shell
- Lightweight - Low Hand Fatigue - All Day Comfort
- Optional Extra: Touchscreen Compatibility
- Optional Extra: Reinforced Thumb Crotch
- Optional Extra: SANITIZED Anti-Microbial Treatment
- Optional Extra: Liquid Resistant Shell Treatment

Protection

All scores & ratings are indicative only, certification pending

N10530A

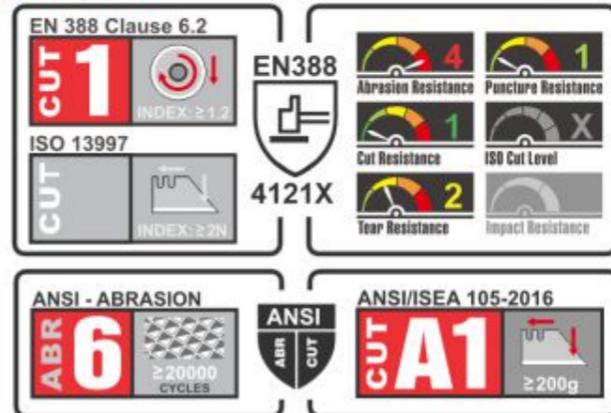

Superior fit, ultra-lightweight seamless precision handling glove with a raised sandy textured Nitrile palm coating that offers extreme abrasion resistance, performance grip and precise handling of small wet / dry / oily components & apparatus.

Characteristics:

- Ultra-High Abrasion Resistant Sandy Nitrile Palm
- 25,000+ Abrasion Cycles to EN388:2016, SATRA Tested
- Maximum Precision Grip of Dry, Wet & Oily Apparatuses
- Extreme Longevity for Extra Demanding Applications
- Superior Fit 'N' Feel 15g Nylodex Breathable Shell
- Lightweight - Low Hand Fatigue - All Day Comfort
- Optional Extra: Touchscreen Compatibility
- Optional Extra: Reinforced Thumb Crotch
- Optional Extra: SANITIZED Anti-Microbial Treatment
- Optional Extra: Liquid Resistant Shell Treatment

Protection

All scores & ratings are indicative only, certification pending

N10584

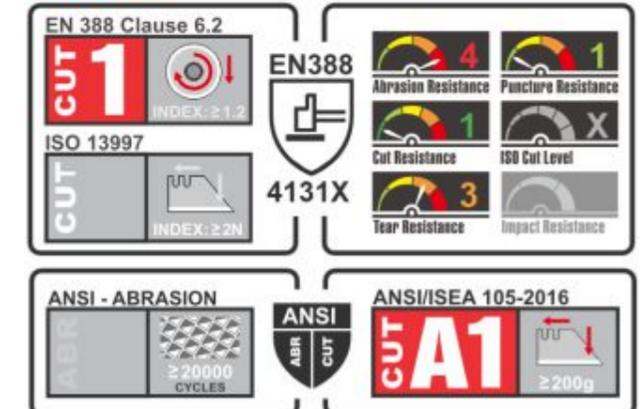

Liquid resistant superior fit, ultra-lightweight seamless precision handling glove with a dual layered Nitrile dipped coating that offers tremendous abrasion resistance, performance grip and precise handling of small components & apparatus in excessively wet, oily and slippery conditions.

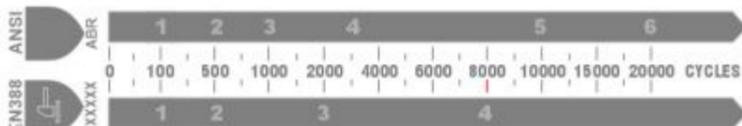

Characteristics:

- High Abrasion Resistant Sandy Nitrile Palm
- Liquid / Oil / Grease Resistant Nitrile Full Base Layer
- Maximum Precision Grip of Dry, Wet & Oily Apparatuses
- Improved Longevity for Grimy & Grungy Applications
- Superior Fit 'N' Feel 15g Nylodex Breathable Shell
- Lightweight - Low Hand Fatigue - All Day Comfort
- Optional Extra: Touchscreen Compatibility
- Optional Extra: Reinforced Thumb Crotch
- Optional Extra: SANITIZED Anti-Microbial Treatment
- Optional Extra: Liquid Resistant Shell Treatment

Protection

All scores & ratings are indicative only, certification pending

N10824

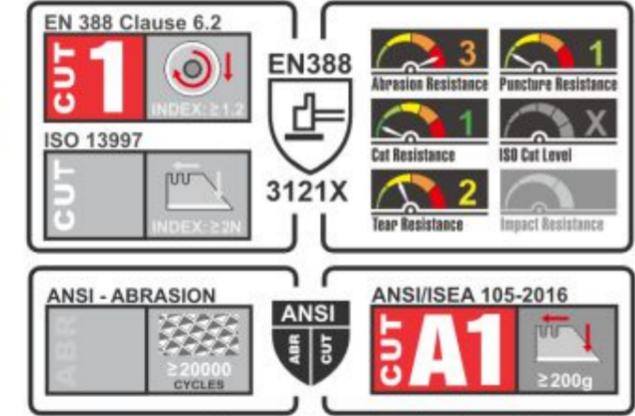

Skin fit, ultra-flyweight seamless precision handling glove with a raised granular textured Nitrile dipped coating that offers performance grip, extreme dexterity and the ultimate precise handling of the smallest wet / dry / oily components & apparatus.

Characteristics:

- Abrasion Resistant Sandy Nitrile Palm
- Ultimate Precision Grip of Dry, Wet & Oily Apparatuses
- Increased Touch Perception, Dexterity & Flexibility
- Superfine Fit 'N' Feel 18g Nylodex Breathable Shell
- Flyweight - Low Hand Fatigue - All Day Comfort
- Optional Extra: Touchscreen Compatibility
- Optional Extra: Reinforced Thumb Crotch
- Optional Extra: SANITIZED Anti-Microbial Treatment
- Optional Extra: Liquid Resistant Shell Treatment

Protection

Hybrid
ARMORGARD

CUT RESISTANT

Hybrid Armorgard

Hybrid Armorgard, a compact group of technically engineered hand armourment, specially developed and created by blending numerous compositions of advanced high performance fibres, innovative materials and manufacturing technologies. Each product group delivers features and benefits to adapt to market and application needs offering essential hand protection predominantly from cuts, slashes, sharp objects and some styles heat also.

T-82PU07

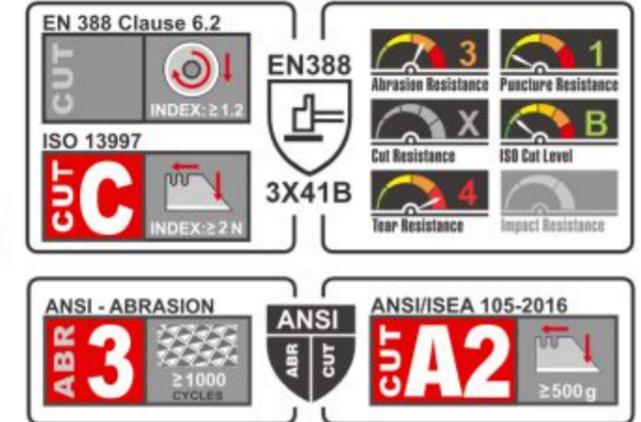

Skin fit, ultra-flyweight seamless precision handling glove with a durable palm dipped Polyurethane coating that offers good abrasion and puncture resistance combined with performance grip, dexterity and the precise handling of the finest components and apparatus.

Characteristics:

- Abrasion Resistant Polyuretane Palm
- Exact Precision Grip of Dry & Light Wet/Oily Apparatuses
- Enhanced Touch Perception, Dexterity & Flexibility
- Superfine Fit 'N' Feel 18g 10TEX Engineered Shell
- Ultra-Flyweight - Low Hand Fatigue - All Day Comfort

Protection

All scores & ratings are indicative only, certification pending

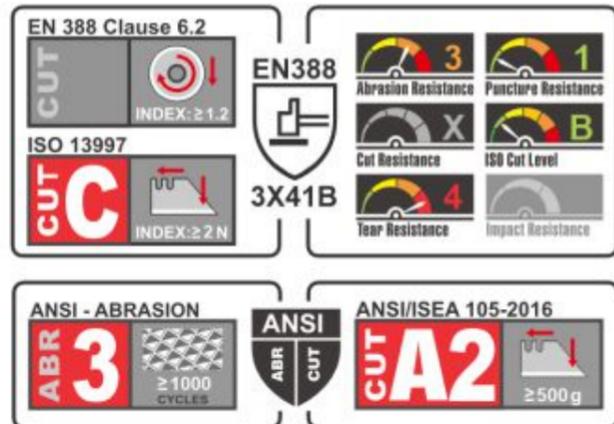

T-32PU08

Contour fit, lightweight seamless precision handling glove with a durable palm dipped Polyurethane coating that offers good abrasion and puncture resistance combined with performance grip, dexterity and the precise handling of small components and apparatus.

Characteristics:

- Abrasion Resistant Polyuretane Palm
- Precision Grip of Dry & Light Wet/Oily Apparatuses
- Excellent Touch Perception, Dexterity & Flexibility
- Superb Fit 'N' Feel 13g 10TEX Engineered Shell
- Lightweight - Low Hand Fatigue - All Day Comfort

Protection

iNPAX

Dipped Knit

Impact Resistant Technology

Custom engineered scientific solutions to impact injuries that are sustained predominantly to the back of the hands, knuckles, fingers and palm zones from everyday work hazards. Using specially formulated materials & innovative patented designs, we create shock and impact absorbing barriers and guards into and onto our protective gloves which significantly reduces transmitted force to the hand..

STEALTH NEXGEN

ALPHA 13A5L1

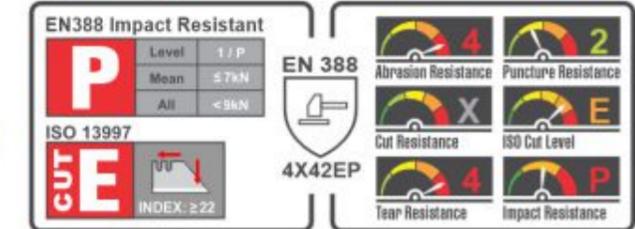

Ultra lightweight, super low profile, flexible bonded anti impact guards, designed to protect hands from light impacts, scrapes, bumps and bangs... Proprietary direct bonding onto most knitted liner types including Cut Resistant - provides secure and reliable attachment without the need for stitching.

Characteristics:

- Ultra High Abrasion Resistant Palm Coating - Maximum Precision Grip for Wet & Oily Applications.
- Touchscreen Forefinger & Thumb.
- Superior Fit 'N' Feel, 15g Nylodex Breathable Seamless Knitted Shell.
- Inclusive thumb and finger guards with integral full flex points/slots that provide unrestricted flexibility.
- Multi component cavity knuckle guard zones allow the glove to stretch and flex naturally mimicking hand movements providing unparalleled comfort & flexibility.

Protection

ALPHA 15A1UHAR

Ultra lightweight, super low profile, flexible bonded anti impact guards, designed to protect hands from light impacts, scrapes, bumps and bangs... Proprietary direct bonding onto most knitted liner types including Cut Resistant - provides secure and reliable attachment without the need for stitching.

Characteristics:

- Ultra High Abrasion Resistant Palm Coating - Maximum Precision Grip for Wet & Oily Applications.
- Touchscreen Forefinger & Thumb.
- Superior Fit 'N' Feel, 15g Nylodex Breathable Seamless Knitted Shell.
- Inclusive thumb and finger guards with integral full flex points/slots that provide unrestricted flexibility.
- Multi component cavity knuckle guard zones allow the glove to stretch and flex naturally mimicking hand movements providing unparalleled comfort & flexibility.

Protection

ALPHA 15A1DD

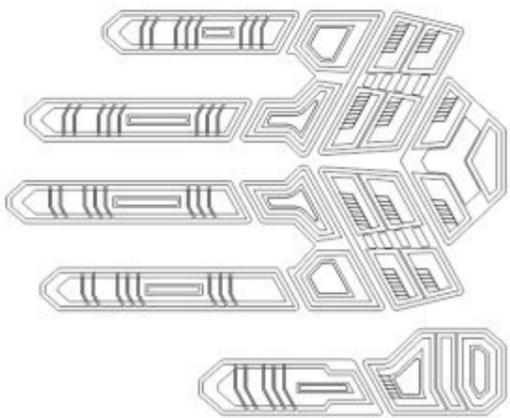

Ultra lightweight, super low profile, flexible bonded anti impact guards, designed to protect hands from light impacts, scrapes, bumps and bangs... JF285B

Cut & impact resistant, touchscreen compatible durable handling glove with a dual Nitrile dipped palm coating that offers performance grip and dexterity for the handling of sharp components in wet, oily and slippery conditions. Flexible anti-impact guard zones provide impact protection to the full rear of the hand.

Characteristics:

- Granular (sandy) foam Nitrile dual-layered palm coating provides maximum precision grip in wet and oily handling conditions.
- Fully touchscreen compatible.
- Exceptional dorsal impact protection to fingers & knuckles while remaining flexible and dextrous due to its innovative Integrated Expansion Slots & Full Flex Points.
- Cut resistant 13g composite knitted shell provides a comfortable fit, feel and all-round cut & slash protection

JF285E

Cut & impact resistant, touchscreen compatible durable handling glove with a XERO foam padded dual Nitrile dipped palm coating that offers performance grip and dexterity for the handling of sharp components in wet, oily and slippery conditions. Flexible anti-impact guard zones provide impact protection to the full rear of the hand.

Characteristics:

- Granular (sandy) foam Nitrile dual-layered palm coating provides maximum precision grip in wet and oily handling conditions.
- Fully touchscreen compatible.
- Reinforced sewn patch to thumb crotch area for extra strength and increased glove longevity.
- XERO foam padding to palm zones offer shock and impact energy control & reduction.
- Velcro adjustable closure for a perfect & secure fit. Exceptional dorsal impact protection to fingers & knuckles while remaining flexible and dextrous.
- Cut resistant 13g composite knitted shell provides a comfortable fit, feel and all-round cut & slash protection.

iN*P*AX Mechanics

Impact Resistant Technology

Custom engineered scientific solutions to impact injuries that are sustained predominantly to the back of the hands, knuckles, fingers and palm zones from everyday work hazards. Using specially formulated materials & innovative patented designs, we create shock and impact absorbing barriers and guards into and onto our protective gloves which significantly reduces transmitted force to the hand..

VANGUARD X-002

Perfectly balanced and assured fit design with an AX Suede™ extreme abrasion hexagonal grip palm c/w integral spillway depression engineered for durability and long-lasting comfort, protection and moderate wet grip. Reinforced forefinger and thumb zones add increased longevity. Flexible anti impact guard zones provide full dorsal protection. Comprehensive heavy duty protection, dexterity and all-round grip for the working professional.

Characteristics:

- Form fitting, flexible and breathable back c/w retro-reflective visibility belt and piping
- AX Suede™ ultra-high abrasion synthetic suede palm with raised PVC dots offers durability + enhanced grip
- INPAX™ 'Multigard' dorsal knuckle & finger exterior protection guards prevent injuries from impacts
- Compact stretch neoprene cuff c/w I.D pull tab + Velcro adjustable closure for a perfect & secure fit

TEMPEST X-006

Waterproof and warm fleece lined construction specifically designed for cold condition operations. An AX Suede™ extreme abrasion palm c/w reinforced finger tips and palm (anti-impact padded) zones offer increased durability and assured grip in wet & light oily conditions. Reinforced forefinger and thumb zones add increased rough grip traction and longevity. Flexible anti impact guard zones provide full dorsal protection. Rugged waterproof protection, warmth and durable handling in harsh elements.

Characteristics:

- Shaped comfort fit, flexible and breathable back c/w retro-reflective visibility piping & cuff hem
- 3M™ Thinsulate™ 100g insulation + HIPORA® breathable, waterproof insert for warm dry hands
- AX Suede™ ultra-high abrasion synthetic suede palm + extra durable & rugged forefinger/thumb areas
- Impact absorbing INPAX™ XERO palm padding reduces shock & vibration from power/hand tools
- AX Suede™ GECKO TACK palm/fingertips displace liquid for optimal friction & grip in wet/slippery conditions
- INPAX™ 'Multigard' dorsal knuckle & finger exterior protection guards prevent injuries from impacts
- Shirred cuff c/w integral wind blocker for weather resistant warmth & comfort + I.D pull tab

H-84SN03

Form fit, flyweight seamless precision handling glove with a durable palm dipped Sandy Nitrile coating that offers good abrasion and puncture resistance combined with performance grip, dexterity and the precise handling of the smallest components and apparatus in wet, oily and slippery conditions.

Characteristics:

- Oil Resistant Textured Nitrile Palm.
- Extra Precision Grip of Wet & Oily Apparatuses.
- Improved Touch Perception, Dexterity & Flexibility.
- Silk-Like Steel® 15g HYPER Engineered Shell.
- Flyweight - Low Hand Fatigue - All Day Comfort.

Protection

H-84MFG03

Form fit, flyweight seamless precision handling glove with a durable palm dipped nitrile granular textured coating that offers good abrasion and puncture resistance combined with performance grip, dexterity and the precise handling of the smallest components and apparatus in wet, oily and slippery conditions.

Characteristics:

- Oil Resistant Nitrile Microfoam Palm.
- Extra Precision Grip of Wet & Oily Apparatuses.
- Improved Touch Perception, Dexterity & Flexibility.
- Silk-Like Steel® 15g HYPER Engineered Shell.
- Flyweight - Low Hand Fatigue - All Day Comfort.

H-55MFP04-Dt

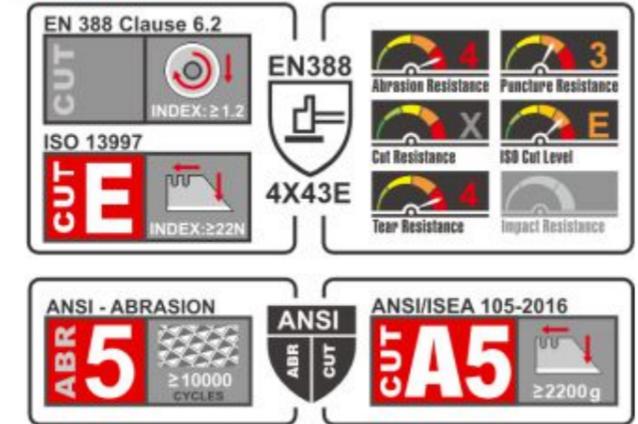

Form fit, flyweight seamless precision handling glove with a durable palm dipped nitrile pitted textured coating with raised mikro dots that offers excellent abrasion and puncture resistance combined with performance grip, dexterity and the precise handling of the finest components and apparatus in wet, oily and slippery conditions.

Characteristics:

- Oil Resistant Nitrile Microfoam Dotted Palm.
- Extra Precision Grip of Wet & Oily Apparatuses.
- Improved Touch Perception, Dexterity & Flexibility.
- Silk-Like Steel® 15g HYPER Engineered Shell.
- Flyweight - Low Hand Fatigue - All Day Comfort.

H-55MFP04-ME

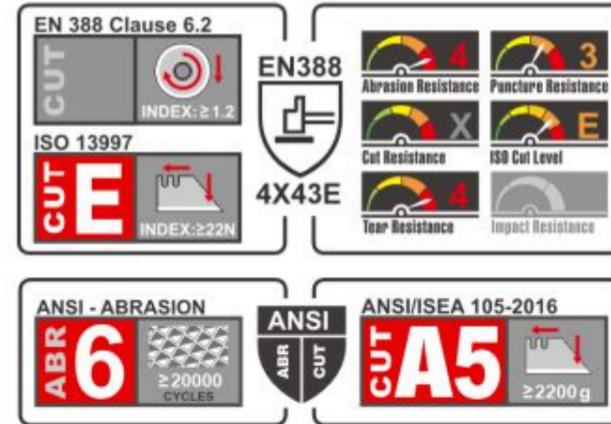

Form fit, flyweight seamless precision handling glove with a durable palm dipped nitrile pitted textured coating that offers good abrasion and puncture resistance combined with performance grip, dexterity and the precise handling of the smallest components and apparatus in wet, oily and slippery conditions.

Characteristics:

- Ultra-High Abrasion Resistant Nitrile Microfoam Palm.
- 22,000+ Abrasion Cycles to EN388 2016, CTC Tested.
- Extra Precision Grip of Wet & Oily Apparatuses.
- Improved Touch Perception, Dexterity & Flexibility.
- Silk-Like Steel® 15g HYPER Engineered Shell.
- Flyweight - Low Hand Fatigue - All Day Comfort.
